Bachelor's in Computer Science | The British College (Leeds Beckett University)

I'm a motivated and adaptable final-year BSc (Hons) Computing student with hands-on experience in social media, marketing campaigns, and using business tools in real-world settings. I've always enjoyed working with people and communicating ideas clearly — whether it's through events or online content. I'm now looking to grow in a Sales Trainee role where I can bring together my tech background and interest in building meaningful connections.
